**Step 5** – Submit your Results

### Hybrid 1 Event:

- The ONLY event you will be manually submitting yourself is your bike.
- If you did the live swim and run, those results will be added automatically to your results.

### Hybrid 2 Event:

- The ONLY events you will be manually submitting yourself is your swim and your bike.
- If you did the run, those results will be added automatically to your results.

Note: If you signed up for either of the Hybrid events but ended up doing all three events virtually, you will need to go into your profile (just like above), click on ‘manage registration’ then click on ‘transfer event’. You will want to transfer to the VIRTUAL EVENT. Once you have transferred to the ‘VIRTUAL EVENT’ you can now go back to your profile and ‘submit your results’.

### Virtual Event:

- If you did all three events virtually you will be entering results for each portion of your race.
